EXPERIENCE

TWOWAITS TECHNOLOGIES PVT. LTD | TATHASTU FULL STACK DEVELOPMENT (MERN) SCHOLAR INTERN
remote | 1st Nov – 30th Nov

- It was a 1-month internship program with 10000+ students participating where we had to do three of four tasks we were given.
- In this program, we learned some of the core concepts of JavaScript and React. Then I did one hands-on project using JS and React and hosted the project on Heroku. I was able to finish all the tasks 4 days before the deadline.

SKILLS

PROGRAMMING LANGUAGES	C++, C, Python, JavaScript
LIBRARIES/FRAEMWORKS	React, Node.js, Express, jQurey, EJS, Bootstrap, Flutter
TOOLS / PLATFORMS	Visual Studio Code, CodeBlocks, Android Studio, Heroku, Cyclic

PROJECTS / OPEN-SOURCE

NOTECESS - A NOTE TAKING APP. | LINK HTML, CSS, JavaScript, Node.js, Express, MongoDB, React, Cyclic.

- A simpler and good-looking version of the "Google Keep" application with all the basic functionalities.
- You can add notes, delete notes, and all your notes will be saved as this application also has a database.

TO-DO LIST | LINK HTML, CSS, JavaScript, Node.js, Express, MongoDB, EJS, Cyclic.

- I made this to-do list that can keep your day-to-day goals as well as enable us to make our own custom to-do lists.

DAILY JOURNAL - BLOG WEBSITE | LINK EJS, CSS, Bootstrap, Node.js, Express, MongoDB, Cyclic.

- With an easy and clean UI, posting blogs becomes super easy on this website
- It opens different page for each blog, which makes it easy to read blogs, as it doesn't let you get distracted by anything else on the screen

BMI CALCULATOR | LINK Flutter, Dart.

A cross-platform mobile application made with flutter to calculate one's BMI.
