 Bankura, West Bengal, India.

SKILLS

- C++
- C
- Python
- JS
- SQL
- MERN Stack
- Flutter
- JQuery
- Git

EDUCATION

HIGHER SECONDARY SCHOOL

Khatra High School

2017 - 2019

BACHELOR OF TECHNOLOGY

Sister Nivedita University

2019 - 2023

ACHIEVEMENT

- University ranking **1st on GFG**.
- **C++ 5***, **C 4***, **SQL 5*** on Hacker Rank.
- Solved **200+** DSA problems

EXPERIENCE

FULL STACK DEVELOPMENT INTERN

TWOWAITS TECHNOLOGIES PVT. LTD

2021 - 2021

- It was a 1-month internship program with 10000+ students where we had to do three of four tasks we were given.
- In this program, I learned some of the core concepts of JavaScript and React. Then I build one project using JS and React for the final round and hosted the project on Heroku. I was able to finish all the tasks 4 days before the deadline.

PROJECTS

Notessecss - A Note-Taking App. | [Link](#)

- A simpler and good-looking version of the "Google Keep" application with all the basic functionalities. You can add notes, delete notes, and all your notes will be saved as this MERN application also has a database.
- Used Technologies - HTML, CSS, JavaScript, Node.js, Express, MongoDB, React, Heroku.

TO-DO LIST With Customization Feature. | [Link](#)

- I made this to-do list that can keep your day-to-day goals as well as enable us to make our custom to-do lists. In doing so, I used Mongo Atlas and hosted the app on Heroku.
- Used Technologies - HTML, CSS, JavaScript, Node.js, Express, MongoDB, EJS, Heroku.
