SUMMARY

I am an aspiring computer science engineer with experience in both C++ and MERN stack development. I have experience working on both front-end and back-end development and have been involved in the full software development cycle from start to finish. I have a keen eye for detail, which has allowed me to successfully deliver high-quality software products.

PROJECTS

NOTECCESS - A NOTE-TAKING APP. | Link.
- A simpler and good-looking version of the "Google Keep" application with all the basic functionalities. You can add notes, delete notes, and its simple UI makes yours work 80 percent easy.
- *Used Technologies - HTML, CSS, JavaScript, Node.js, Express, MongoDB, React, Heroku.*

TO-DO LIST | Link.
- I made this to-do list that can keep your day-to-day goals as well as enable us to make hundreds of our own custom to-do lists.
- *Used Technologies - HTML, CSS, JavaScript, Node.js, Express, MongoDB, EJS, Heroku.*

DAILY JOURNAL - BLOG WEBSITE | Link.
- With an easy and clean UI, posting blogs becomes super easy on this website.
- You can be 100 percent focus on the blog as it doesn't let you get distracted by anything else on the screen as it opens a different page for each blog.
- *Used Technologies - EJS, CSS, Bootstrap3.3.7, Node.js, Express, MongoDB, Heroku.*

BMI CALCULATOR | Link.
- A cross-platform mobile application made with flutter to calculate one's BMI. I made this project in my second year.
- *Used Technologies - Flutter.*

EXPERIENCE

TWOWAITS TECHNOLOGIES PVT. LTD —
Full Stack Development Intern
Nov 2021 to Dec 2021 (1 month)

- We were part of a 1-month internship program with more than 10000 students in which we were required to complete three of four tasks.
- As a result of participating in this program, I learned some of the basics of JavaScript and React.
- During the final round, I designed one project that was based on React and JS and deployed it on Heroku.
- After completing all the tasks by the deadline, I was able to finish them 4 days earlier than expected.

EDUCATION

BACHELOR OF COMPUTER SCIENCE AND ENGINEERING.
Institution: Sister Nivedita University.
Year of Graduation: 2023
*Score: **8.32** CGPA(till 6th semester)*

HIGHER SECONDARY WITH SCIENCE.
Institution: Khatra High School.
Year of Completion: 2019
*Score: **85** percent*

RELEVANT SKILLS

- C/C++, Python, JavaScript, SQL, MERN Stack, JQuery, Git, Flutter(basic).
- Problem Solving.

ACHIEVEMENTS

- C++ **5***, C **4***, SQL **5*** on Hacker Rank.
- Solved **300+** DSA problems.
