Summary

Versatile Full-Stack Engineer with expertise in **web development**, **blockchain** and **AI**. Proven track record in building **scalable**, **high-performance** applications using modern technologies. Skilled in optimizing data extraction, enhancing user experiences, and ensuring reliable cloud infrastructure.

Experience

Vara Infrovate Pvt. Ltd. **July 2023 - Present**
Software & AI Engineer Kolkata

Full Stack Engineer:

- Actively contributed to Blockchain team as a **full-stack** engineer.
- Developed backends using **NestJS** and **Gin**, cutting response times by **20%**.
- Built dynamic frontends with **Next.js** and **React.js**, improving load times by **25%**.
- Integrated **LiveKit** for video KYC and **WebSocket** for **real-time chat**, enhancing customer verification and onboarding **efficiency**.
- Designed database models and APIs, increasing data throughput by **25%** and improving **scalability**.
- Built **scalable** backends with **Prisma** and **TypeORM**, improving API **performance** by **15%** and cutting development time by **20%**.
- Dockerized, deployed and maintained applications on **AWS** instance, ensuring **99.95% availability**.

AI Engineer:

- Spearheaded the transformation of **large text blocks** into **structured** tabular data, optimizing extraction workflows.
- Integrated **NER** and **OCR** models to streamline data extraction, enhancing accuracy and efficiency.
- Leveraged **PaddlePaddle** for precise OCR and **SpaCy** for NER, creating a seamless data processing pipeline.
- Elevated outcomes by refining a custom NER model, empowering efficient extraction of specific, mission-critical information.

Vara Infrovate Plt. Ltd. **Jan 2023 - July 2023**
On-Job-Trainee Kolkata

- Actively contributed as a **backend developer** in the blockchain team during my tenure as an **on-job-trainee**.
- Utilized **Nestjs** framework to develop **robust backend** for blockchain applications.
- Collaborate with the team to design and implement **database models** and **APIs** for the application.
- Employed **Prisma** and **Swagger** services to build **scalable** and **efficient** backend system.

Skills

Problem Solving	AI Prompting	TypeScript	Python	C++
SQL	Golang	NestJs	NextJs	ReactJs
NodeJs	ExpressJs	ReactNative	Postgresql	MongoDB
Sqlite	Docker	Git	Mongoose	Prisma
Typeorm	Web3Js	Pandas	TailwindCSS	AWS

Projects

Smart Ingredient Analyzer

A high-impact tool promoting informed consumer decisions through AI-driven ingredient transparency.

<https://shorturl.at/L2jqx>

- Developed a cross-platform mobile app using **React Native** and **FastAPI** to scan and analyze product ingredients via image capture.
- Integrated **Tesseract OCR** for accurate text extraction and **ChatGPT API** to generate AI-driven insights on ingredient purpose, health effects, and studies.
- **Deployed live:** Backend hosted on **AWS EC2**, frontend on **Expo EAS**, enabling real-time access and scalability.

Whatapp Chat Analyzer

<https://whatsappchatanalyzer-786.streamlit.app/>

- Engineered a comprehensive WhatsApp chat analysis tool, featuring insightful visualizations as **Bar Charts**, **Line Charts**, **Heat Maps**, and **Word Clouds**.
- Developed **algorithms** to extract key data points including "**Busiest User**" and "**Activity Hour**", enhancing understanding of chat dynamics.
- Implemented **robust metrics** such as "**Total Messages**" and "**Media shared**" to provide concise yet **comprehensive insights** into chat content and engagement patterns.

Dynamic To-do List

<https://dynamic-todo-list.onrender.com/signin>

- Engineered a **versatile to-do list** for both daily goals and custom tasks, powered by **Express**, **EJS**, and **MongoDB** deployed on **Render** for universal access.
- Strengthened security and privacy with **JWT** token-based authentication and user validation, ensuring data integrity.

Nodeccess - A Google Keep Clone

<https://noteccess.onrender.com/>

- Crafted a **visually appealing "Google Keep"** alternative with essential functionalities.
- Seamlessly add and delete notes, all securely stored in a dynamic database. Redefined note-taking with a modern interface for effortless organization.
